Q4a. British Columbia mines and exports approximately \$10 billion in steelmaking coal each year. Alberta has significant reserves of the same type of coal. In recent years, Alberta has not allowed the mining of this type of coal. Alberta has the potential to develop a similar sized steelmaking coal industry as British Columbia, which could potentially support more than 2,000 direct jobs over the next 20 years. Please tell me whether you would strongly support, somewhat support, somewhat oppose, or strongly oppose the development of steelmaking coal mines in Alberta under the following circumstances. If the local community near the mine voted in favour of allowing the mine

Q6. The Grassy Mountain Coal Project is a proposed open-pit steelmaking coal mine located on a previously abandoned mine site near Crowsnest Pass. In November, 72 per cent of voters in Crowsnest Pass voted in favour of allowing the Grassy Mountain mine to proceed. Given this, would you strongly support, somewhat support, somewhat oppose or strongly oppose the government allowing for the Grassy Mountain Coal Project to go ahead?
